OBJECTIVE

Experienced coding bootcamp graduate with extensive background with developing mobile applications, and building websites from the ground up using JavaScript, React, and Angular. Professional strengths include creative problem-solving, written and verbal communication, and time management. Detail-oriented mindset from 5+ years of experience in the finance industry.

FEATURED PROJECTS

Event Meetup - Live Demo | GitHub Repo
Tech Specs: React, NodeJS, Gherkin, Google Calendar API, AWS
- Users can search for a city and view a list of events hosted in the selected city.
- Allows a user to view charts that display how many events will take place on certain days

filmFlix - Live Demo | GitHub Repo
Tech Specs: Angular, TypeScript, Node.JS, Express, MongoDB, Passport
- Provides users with the access to information about different movies, directors and genres.
- Users are able to sign up, update personal information, and create a list of their favorite movies.

Chatterbox - Live Demo on Android Emulator | GitHub Repo
Tech Specs: React Native, Firebase, Expo, Gifted Chat, Android Studio
- Native mobile chat app that allows users to send messages, images, and location data both online and offline

WORK EXPERIENCE

July 2020 – Present
Accounting Specialist – HireCall – Tulsa, OK
Processed and managed the timeliness and accuracy for a national background screening company with multiple locations. Reconciled, closed, and validated monthly sub-ledger while resolving all issues.

June 2018 – July 2020
Outbound Client Engagement Specialist – Peoplefacts – Tulsa, OK
Quality check of all criminal background screens for accuracy and turnaround time. Identified criminal searches which were past the county or state determined turnaround time and investigated the reasoning.
